Subject: [the_conductor] Train Tools Videos and Newsletters are posted!
Reply-To: the_conductor@yahoogroups.com

All.

Many of you have asked where are the latest newsletters posted on our
products? I have placed html version of these newsletters in our site
in the press room. (see links below)

All dealers and OEMS are currently stocking Train Tools version 308.
There is still time to get your Christmas orders in before the holiday.
(see dealers are located in UK, South Africa, Georgia, Ohio, Oregon).

Lenz and ZTC are shipping KAM software products.
- Lenz Set Li is shipping with Loco Ce
- ZTC is shipping Classic Panel with their computer interface

We are continuing to implement the changes that you would like to see in
the software products and our site. As we role out our products for
2007, we are extremely excited with the solutions that we will offer to
the MRR community.

Thanks for all the support this past year!
